REPORT OF THE LIBRARY TRUSTEES

Ruth Blatchford commenced her duties as librarian on January 1, 1973. The trustees are very appreciative of her efforts during the year. Under her guidance, Children's Programs were conducted and special exhibits were displayed. Many students availed themselves of the services of the library during the year.

Many persons and groups contributed books and articles to the library. A special thanks is given to the Friends of the Library for the installation of a telephone and a file cabinet.

The windows have been painted and puttied and combination windows installed.

The Library is now open fifteen hours weekly, on Tuesday from 1:30 to 6:00 p.m., on Wednesday 9:00 a.m. to 12:00 p.m. and 1:30 to 6:00 p.m., and on Saturday 2:00 to 5:00 p.m.

Town Warrant

The State of New Hampshire

To the Inhabitants of the Town of Hampton Falls in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Hampton Falls on Tuesday, the fifth day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the ensuing year.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.

3. WARRANT ARTICLE: To see if the Town will vote to readopt the Zoning Ordinance which is in conformity with the comprehensive Master Plan adopted by the Planning Board on 11 January, 1974.

(Recommended by the Planning Board)

(In explanation, the following portion of the Southeastern Regional Planning Commission Future Land Use Plan (Vol.5) has the following sections which apply to Hampton Falls. It should be stated that all of the following elements can be altered, changed or even deleted if necessary by the Town. The only binding force is the Plan itself which will solidify the Ordinance legally and according to State Statutes (RSA 31:72) which require that a zoning ordinance be based on an adopted comprehensive plan. Doing it this way will cost the Town nothing but will accomplish the same end, i.e., ensuring the legal validity of our Zoning Ordinance. The Comprehensive Plan will **not** supercede the Zoning Ordinance in any way.)

GOALS AND OBJECTIVES

Section A: Agriculture, Fisheries, and Mining pp 10-11, Vol.5

The goal is: The careful use of our natural resources so that the activities based thereon may continue at a steady pace without undue damage to other aspects of the area, more particularly:

1. To encourage the maintenance of agriculture and forestry wherever it still exists, by:

a. "Use" assessment of property which will allow the continuation of relatively low return agricultural use with a "recapture" provision at the time of development to collect a fair proportion of the taxes missed.

b. Agricultural zoning coupled with use assessment where agriculture is feasible and where premature development would cost the public more than the tax revenue.

2. To encourage the maintenance of the clay-using industries and discourage the use of clay deposits as building sites, by:

a. Zoning the better clay deposits industrial to prohibit scattered residential development, and to resist strong pressures for immediate development in other uses.

Section C. Commerce pp 13-14, Vol. 5

The goal is: a safe and convenient method of acquiring goods and receiving services which prove profitable to the commercial interests, more particularly:

2. To encourage the maintenance of established commercial areas in or near town centers for convenience and grocery shopping, by:

a. Encouraging the establishment of off-street parking facilities in the more congested town centers such as Exeter.

b. Encouraging the upgrading of older town centers

through concerted effort by local businesses, Chambers of Commerce, and town government to provide attractive and convenient shopping.

c. Zoning to discourage scattered commercial enterprise and encourage their location in town centers.

Section D: Housing pp 15-16, Vol. 5

The goal for housing in this region, is, not merely a decent home for everyone, but a decent home which also provides satisfaction to personal desires for security and self-fulfillment, more particularly:

2. To develop housing patterns within a community which promote civic or neighborhood pride and consequently good maintenance of the existing housing stock, by:

a. Encouraging status quo zoning in established residential areas which permits only residential units compatible in density and scale with pre-existing development.

b. Assisting the development of zoning and subdivision regulations for as yet undeveloped residential areas to:

1. Require installation of a high quality of public improvements, including bituminous asphalt paving, and also including curbing, sidewalks, street lighting, storm drains and catch basins, where required.

2. Encourage preservation of the natural beauty of the landscape by discouraging grid plan lot layouts and by encouraging open space and cluster development.

3. Promote economical and orderly expansion of public services by encouraging residential development in areas already served by roads, water, sewer, and other public facilities and discouraging new residential

development in scattered areas of poor accessibility which would result in excessive costs for installation of public facilities.

Section E: Open Space pp 17-18

The goal is: the preservation of open space for ecological and psychological reasons, making the region a better place in which to live, more particularly:

1. To encourage the beauty of the region as one of its most important assets for both active recreational uses and retention as natural areas as appropriate, by:

a. Preserving the ocean frontage for public recreational use to the extent it does not have significant adverse ecologic effects.

b. Preserving the salt marshes for essentially passive recreational pursuits, hunting, and fishing, and purely ecological reasons.

c. Preserving rivers and streams and their banks.

d. Preserving of a cross section of types of natural and man-made areas of the region including forests, bogs, hill tops, ravines, farms, and so on.

2. To provide adequate amounts of recreational area for the citizens of the region, suitable located to serve its various recreational needs, by:

a. Establishing municipal parks and playgrounds within easy reach of the population.

b. Developing and equipping municipal recreation areas to meet the needs of the population.

Reserving land for such use now in anticipation of future need.

3. To provide public and private recreational facilities for the visiting vacationer, recognizing that he is an important part of the economic base of the region, by:

a. Maintaining in public ownership the ocean frontage presently so owned and acquiring more when possible.

b. Encouraging the commercial recreational campground, the hotel, the commercial golf course, and similar facilities to round out the commercial recreation base, and enacting zoning and other development controls to more adequately regulate the conduct of these businesses.

4. To retain open space that by its location serves to separate and thus identify and protect communities and neighborhoods.

Map V-1, Highway Classification, 1990 and Land Use Plan 1980, 1990, as they pertain to Hampton Falls.

On Friday January 11th, the Planning Board, in accordance with State Statutes, adopted The Comprehensive Plan above in the following resolution:

"Resolved that the Planning Board of the Town of Hampton Falls adopt as its Master Comprehensive Plan the following sections of the **Future Land Use Plan, Vol. 5** by the Southeastern N.H. Regional Planning Commission, 1 May, 1972, second edition, 1 January 1973: 'Goals and Objectives: Section A, Agriculture, Fisheries and Mining, paragraphs 1, a, b, and 2 a pp. 10-11; Section C, Commerce, paragraph 2 a,b,c, pp. 13-14; Section D, Housing; paragraphs 2, a, b, pp 15-16; Section E, Open Space, paragraphs 1, a, b, c, d; 2a, b, c; and 4 pp 17-18; and those sections of the following which pertain to Hampton Falls: 'Map V-1 Highway Classification 1990,' following page 28; 'Land Use Plan 1980,' 'Land Use Plan 1990,' following page 38. The preceeding references are excerpted from a certified copy of Future Land Use Plan, Vol. 5 in the possession of the Planning Board. A certified copy of the relevent excerpts will be sent to the Hampton Falls Selectmen and Town Clerk."

4. WARRANT ARTICLE: To see if the Town will vote to amend the Zoning Ordinance, Article III, Section 3-A. (Permitted Use) Residence not to exceed two dwelling units to read as follows:

Louis Janvrin moved to have the article passed as read. Seconded by William Ackroyd. Carried.

Article 21 — Other business

Frank Ferreira introduced the following resolution:

"Be it resolved that in-as-much-as Grace Perkins first introduced the subject of the Town's 250th Anniversary to the Town Meeting and from that point on served as one of the chief workers and "spark-plugs" for that successful celebration, the Town of Hampton Falls, in Town Meeting assembled, extends its thanks and appreciation for her tireless efforts."

Jeanne Lonnergan nominated Jane Hughes as Hog Reeve for the coming year. Seconded by Cynthia Trumbull. Nominations closed upon motion by Russell Merrill, Jr. The oath of office was administered by the Moderator and Mrs. Hughes was presented with her badge of office by outgoing Hog Reeves, Dr. and Mrs. Putnam Breed.

John Parker called for a report from the Conservation Commission. George Merrill, member present, reported that there was none to be given outside of the announcement of the Annual Spring Clean-up to be held in April. Mr. Merrill took this time to publicly resign from the Conservation Commission.

Daniel DeWitt spoke on the possibility of an ordinance on litter-bugs.

John Parker spoke on the County Tax and disputed the County Budget.

Report of the Forest Fire Warden and District Chief

The New Hampshire forest fire Service is represented in every town, city or unorganized place in our state by the forest fire warden. Anyone wishing to kindle an outside fire when the ground is not covered with snow must first obtain the written permission of the fire warden. Except for cooking fires, no fire can be kindled between 9:00 a.m. and 5:00 p.m. unless it is a commercial or industrial burn or it is raining. The fire warden is assisted in his work by the District Forest Fire Chief who works for the Department of Resources and Economic Development Forest Fire Service.

Fire prevention was, again this year, the most important part of the Forest Fire Warden's job. Fire statistics show the need with 72% of the fires caused by smoking, debris burning and children. Smokey the Bear is an important prevention tool, but he still needs much help from the public. Parents should warn their children of the hazards of playing with matches. Children tend to forget that a lighted match in their hand is a potential forest fire.

1973 REPORT OF THE FIRE DEPARTMENT OF HAMPTON FALLS, NEW HAMPSHIRE

To the Citizens of Hampton Falls:

I wish to submit my annual report of the Fire Department to the Citizens of the town of Hampton Falls. We have had a very fine year, which proves that everyone is Fire Conscious.

During the year we undertook several projects, such as a Fair, horse show and many bean suppers. The Officers, men, and myself wish to thank each and everyone who participated and supported these affairs and made them so successful.

We have also been busy making improvements at the station. The front yard has been hot topped and we are now working on the new addition at the back of the station to make room for our new truck which we hope to receive this spring, hopefully April or May.

The State law requires that a permit must be issued to anyone wishing to do outside burning, and that no burning shall be done between the hours of 9:00 a.m. and 5:00 p.m. Permits may be obtained from the following:

Eugene A. Heal - Warden
Louis Janvrin - Deputy Warden
Donald Janvrin
Forrest Brown

Our meetings are held on the first Tuesday of each month and the other Tuesday nights are spent on drills, working on the station and equipment. I want to thank each and everyone for their help and co-operation in making 1973 a very pleasant and successful year.

Respectfully submitted,

EUGENE A. HEAL
Fire Chief

**Report of the Ladies' Auxiliary
Of The
Hampton Falls Volunteer Fire Department**

This has been a busy and productive year for the auxiliary. In February, the Twelfth Annual Firemen's Ball was held at the Town Hall. This was both socially enjoyable and financially rewarding for the organization. The combined membership of the Volunteer Fire department and auxiliary also met for a pot-luck supper and a slide-show of the 250th anniversary celebration presented by Richard Sanborn. The Fire Warden's supper was held in April.

The ensuing months included the May 19th Ham and Bean Supper and the Annual Horse Show held in June. Months of hard work then culminated in a successful Village Green Fair.

Come fall, auxiliary members were involved in the two Ham and Bean suppers. Following the October supper, the Harvest Dance was held at the Fire Station. A bake sale was conducted by the auxiliary in November. The traditional Yankee Swap was enjoyed by members at the December meeting. Throughout the fall, much organizational work was carried out by the co-chairwomen for the forthcoming Village Green Fair.

The ladies' auxiliary meets regularly on the first Monday of each month, at the Fire Station. The organization looks forward to meeting new members and to welcoming those of you who have not been able to attend meetings in the past. People and their group participation determine the effectiveness of any organization.

Sincerely,

TRACY HEALEY,
President

REPORT OF THE HAMPTON FALLS SOLID WASTE PLANNING COMMISSION

To The Selectmen:

January 10, 1974

The members of the Hampton Falls Solid Waste Planning Commission held their organizational meeting on April 28, 1973. Daniel DeWitt was chosen chairman and Frank Ferriera, secretary.

For a major portion of the year our work was involved with the efforts of the Southeast Regional Solid Waste Planning Committee, comprised of representatives from Hampton Falls, Kensington, Seabrook and South Hampton. Our representative, Daniel DeWitt, served as secretary of that group. Otis Perry of the Southeastern New Hampshire Regional Planning Commission was advisor.

The regional committee conducted a study of the type and volume of waste being dumped in each town. From this study, projections were made which served as the framework for further discussions and planning.

A thorough study was made of various methods of waste disposal. The region was surveyed for possible disposal sites.

At a meeting on November 20, Kensington announced their decision not to be involved in a regional plan. This had the effect of killing the regional idea. We felt that regionalization with South Hampton was impractical and with Seabrook, undesirable.

Using information and ideas gleaned from the regional committee, we set about investigating possibilities for Hampton Falls. After meeting with several experts in the field, we are recommending to the Town, through you, a plan similar to that of Nottingham, New Hampshire.

We recommend a combination of recycling and incineration. All materials that can be salvaged would be. The rest would be incinerated. This would require separation of waste materials in the home before the

materials are brought to the site; and, we recommend an ordinance to that effect.

The estimated expenses, both capital outlay and operational, have been submitted to you. Copies, however, are attached to be incorporated with this report.

The committee has spent untold hours investigating waste disposal. These recommendations, which obviously we feel embody the best solution for Hampton Falls, fulfill our obligations as set forth by last year's Town Meeting. Should the Town, however, wish us to continue to serve, either to see this plan to fruition or to seek an alternative, we are willing to do so.

Respectfully submitted,

DANIAL DEWITT, CHAIRMAN
RICHARD O. SWAIN
FRANCIS J. FERREIRA, JR.

Distribution Costs	5,200.00
(transportation & marketing)	

TOTAL OPERATING EXPENSES:	\$18,720.00

With a recycling project, there will be revenues to help offset the operating expenses. These figures have changed so radically, however, (corrugated has doubled its value in the last 6 weeks) that we are not submitting an estimate. We feel that whatever we estimate today will have no validity in March.

REPORT OF THE CONSERVATION COMMISSION 1973

During the past year your Conservation Commission has been working hard on a project for the establishment of a Town Forest. Based on a careful survey of potentially available areas in the town, we have selected a general area, about 130 acres in size, as most suitable for a Town Forest site. The total area, which is held by eight different landowners, consists primarily of mature woodland, but it also includes an open field and some saltwater marsh. We have engaged a professional appraiser to estimate the current values of the individual parcels in the area and have used these appraised values in making tentative offers to the landowners. Although we have received oral statements indicating willingness to sell some of the acreage to the town, we have as yet been unable to obtain signed option contracts, as would be required before we can ask the townspeople to vote an appropriation of money to purchase land. Our negotiations to purchase Town Forest land will continue during 1974 and we have reason to believe that we will have signed options for purchase on which the town may vote at the Town Meeting in March, 1975.

We are pleased to report that we have obtained a Ford Foundation grant which will cover up to \$1,900 of the legal and survey expenses of acquiring any land which the town buys for a Town Forest. In addition, negotiations are underway with the Director of Recreational Services in Concord which we are assured will lead to a 50% funding of the appraised value of land acquired for a Town Forest. Finally, as soon as we obtain signed commitments to sell from one or more landowners, we plan to publicize the Town Forest project and to solicit individual contributions in support of it, further to reduce the amount which we will have to ask the townspeople to appropriate from tax funds.

A successful roadside clean-up was conducted last April and another one will be held in April, 1974. We look for your continued enthusiastic support of these clean-up campaigns.

Donald H. Chase, Chairman

Report of the Commissioners of the Southeast New Hampshire Regional Planning Commission

During the year the Southeastern New Hampshire Regional Planning Commission ha continued to provide advice and assistance to the Town Planning Board in matters related to the orderly growth and development of the Town. With the numerous legal and engineering considerations involved in such development, the Commission has served as an information resource with which the Planning Board may consult.

The Commission recently completed a four-Town Regional Waste Disposal Plan under the direction of appointed officials from each Town. Hampton Falls was one of the communities involved and a report will be made at the Town Meeting by these officials. The Commission has also assisted the Planning Board in preparing a Master Plan for the Town which will be presented to the citizens for consideration. The adoption of such a plan would serve to strengthen local zoning regulations.

As such matters as the proposed nuclear power plant, and the proposed oil refinery and offshore terminal come up for consideration, it becomes obvious to your Commissioners that the scope and power of this Commission is broadening. Both in the need for Area Planning and the need for project funding, the Regional Planning Commission becomes a most helpful adjunct to local planning. The need for area planning becomes great with the increase in population density and industrial and recreational growth.

Activities of all kinds seem to be taking place at a furious pace in our corner of New Hamshire and it must follow that some order be introduced to counter possible devastation. A body which can view this activity more broadly than local organizations which seldom communicate, can be valuable.

Your Commissioners have participated in such a body and feel that their time and the Town's money have been well spent.

Respectfully submitted,

JEROME HEALEY
MARK KELLY

Fiscal Year	1971-72	1972-73	1973 (4 months)
Total Calls	3,886	4,206	1,584
Hampton Falls	319	299	101

In fiscal 1972-1973, 299 calls were made, 78 of which were made at no charge. It is the policy of the agency to scale fees or provide service on a no-charge basis to those patients unable to pay. In addition to Nursing Service the services of our Physical Therapist and Speech Therapist were utilized in Hampton Falls.

14 Children from Hampton Falls are beng followed at our Well Child Clinic. They receive physical exams, immunization, counseling, blood tests and developmental screening. This past year for the first time we were able to offer a Dental Clinic for those children in our Well Child Clinic which included cleaning and topical flouride treatment. In the past year we sponsored an immunization clinic in the school with the help of the School Nurse, 84 children were immunized. A vision and hearing screening were also offered.

Visits are made monthly on those persons in your town who come under the State TB program to check on their medication supply, observe for adverse reactions and make appointments for follow-up chest x-rays.

We are also involved with the Aftercare program in conjunction with the Seacoast Regional Counseling Center. Patients who have been discharged from New Hampshire Hospital are followed, appointments are made for them to be seen at the counseling center for medication reviews and additional assessment and much emotional support is given to both the patient and family.

Referrals are made to appropriate agencies when the need arises.

On behalf of the Board of Directors, I wish to express our appreciation to the four towns involved, to the organizations and private citizens who have contributed to this worthwhile work, to the ladies who have given volunteer service at the Well-Child Clinics. The Board is very proud of our staff who are dedicated and conscientious nurses and of our efficient part-time secretary.

Report of the Seacoast Regional Counseling Center

January 21, 1974

George Pond, Chairman
Board of Selectmen
Hampton Falls, New Hampshire

Dear Mr. Pond:

I am writing to request a grant of \$500 from the Town of Hampton Falls for the Seacoast Regional Counseling Center, located at the Portsmouth Hospital, Junkins Avenue, Portsmouth, with a branch office at the Exeter Clinic, in Exeter, New Hampshire.

Last year, July, 1972 to June, 1973, we treated five people from Hampton Falls for a total of eleven hours. Our cost of treatment is \$25.00 per hour, bringing the total for direct treatment to \$275.00. This, coupled with an additional ten hours spent in support services and additional consultative time to the schools and other local agencies brings service rendered to Hampton Falls to \$575.

We are not trying to collect all monies expended for service from the local communities, but our state grant is dependent on matching grants from the towns and cities in our service area. I am enclosing a list of the communities that we serve and the level of the grants from each. I am also enclosing a copy of our 1972-1973 Report which will help in defining the programs that we offer.

Thank you for your consideration and please let me know if there is anything further I can do.

Sincerely,

Richard S. Lockhart
Administrative Director

Minutes of December 14, 1973 Special School District Meeting

A.D. 1973

The Special School District Meeting was called to order on December 14, 1973, at 7:30 p.m. by the School Moderator Richard Bohm. The Moderator read the decree from Judge Thomas J. Morris, Justice of the Superior Court allowing the special school district meeting, following the salute to the flag by those assembled. He then read the warrant in its entirety.

School Moderator ruled:

1. Once an article taken up in the warrant is finished no further action may be taken on it with the exception of one reconsideration in case of error or misunderstanding.
2. There will be a limit of 2 amendments to any article or any motion or part of a specific article.
3. Any lengthy motion shall be submitted to the moderator in writing.
4. The chair will recognize first a sponsor of any article or item in the warrant.

School Board member Newell Eaton moved that the District vote to authorize the construction of an addition to the Lincoln Akerman School, including furnishings, equipment, architectural and other fees, site development and any other items incidental to and necessary for such construction, and further to authorize the Hampton Falls School Board to raise a sum not to exceed \$402,797 by the issue and sale of bonds or notes of the School District in accordance with the provisions of Chapter 33 of the Revised Statutes Annotated as amended and to apply toward the cost of the project all grants and interest received in addition to said sum. The time and place of payment of Principal and Interest, the fixing of the rate of interest, provisions for the sale of notes and/or bonds and all other matters in

connection therewith, to be left to the discretion of the School Board.

The motion was seconded by Andrew Drakides, Chairman of the School Board.

Mr. Drakides asked the Moderator for permission to have the architect from Hershey Associates, Mr. Richard Gove, explain the proposed plans for the addition and to answer questions from the floor. There being no objection from the voters present Mr. Gove was given permission to explain the plan for the proposed addition. Mr. Gove, with the help of an overhead projection of the architect's drawing of the addition, went over the plan detail by detail. Following his presentation he asked for any questions.

John Parker asked for a repeat of the figure asked for in Mr. Eaton's motion and upon receiving it asked if that figure included electric heat or oil fired system. Mr. Eaton said that it would cost \$15,497 more for the oil heat to be installed.

Mr. Gordon Allen asked how many children this new addition would allow the school to accommodate. He was answered by Mr. Drakides that there would be room for 200 to 250 children.

Mrs. Beryl Marshall asked that the addition be voted for by those present because she felt that the standards at the Junior High School in Hampton are not high enough to equip Hampton Falls students for the 9th grade. she did not feel that the double sessions in Hampton were the whole cause of the low standards.

Mrs. Donald Nickerson asked if the hot lunch program would go into effect immediately if the addition and kitchen were voted for. Mr. Drakides answered that it would.

Mr. Morris Courchesne asked about the growth of the student body and asked if 3 new classrooms were going to be adequate. School Board Member William Kenney said it is hard to determine just exactly what the school population would be because of the possibility of a new development being built, people moving into town or people moving out. In the past, the number of children moving in have been balanced out by the number moving

out of town. Grace Perkins asked if the board could come up with a more sensible plan, saying that the proposed plan was beautiful but expensive.

Gloria Kent wanted to know if the Board had considered other plans and was this plan the most attractive and the most economical.

Andrew Drakides said that the present building has necessitated very little maintenance and after going over several other plans they picked the one being presented. Mr. Kenney said that they had discussed other alternatives but did not like any of them. Mark Kelley asked the architect if he anticipated any difficulty in getting materials. Mr. Gove replied that they are looking toward standard materials that are stock piled and is hopeful that they can place order quickly and therefore get a jump on shortages. Discussion was brought up on the staffing on the addition and the moderator ruled that such discussion was not germane to the motion on the floor.

Dr. Charles Bailey wanted to know if the architect felt that they could rely on the \$400,000 figure and wondered if the lowest bidder might be liable to come in higher than that figure. Mr. Gove replied that although the figure is an approximation there is a 10% leeway and felt that if bidders know what your figure is they will come in under it.

Andrew Drakides said that the state will pay 30% of the principal and that the board is leaning toward the 15 year plan.

Mr. Donald Brown wondered if the board had considered the preengineered buildings.

Donald Janvrin said that Northwood, New Hampshire has built modular classrooms and that they are not satisfactory at all. Mr. Gove said that they cost less money — but there is no choice of placement of rooms, etc. The plans are usually set plans. Mrs. Rosalie McBarren said that the tax impact of the new addition is certainly a problem for all regardless of age. However, with the state of the world and community she feels we should start in our own community to set some things right.

David Benoit questioned the representative from Hershey Associates on who had the responsibility of quality control on the building. Mr. Gove replied that his company would supervise quality control. Supervision on the construction site would be made every 5 days, they would check all shop drawings and all major jobs such as cement work.

Mr. Robert Walker spoke of his knowledge of Hershey Associates and highly recommended them.

Gloria Kent wanted to know when the building would be ready if it were to be voted for. Mr. Gove replied December of 1974. Discussion was held for several minutes on electric heat versus oil heat. Mr. John Parker then made the following motion:

I move to amend Article 1 as follows: that the sum of \$15,497 be added to the sum in Article 1 for the purpose of an oil heating system.

The motion was seconded by Mark Kelley. The vote was taken with 36 votes for the amendment and 137 against. The amendment did not pass.

Mr. Louis Janvrin asked if anyone had contacted the church to see if it would be possible to use the classrooms there and the gym. Mr. Walker questioned if the use of the church would meet state standards.

Mrs. Jean Wagner asked if the decision on how to finance the addition was entirely up to the school board. She felt that the taxpayers should have a say on how it is financed. She felt that future parents should help to pay for it, too.

Newell Eaton said that the board leaned toward the 15 year plan, but that they were certainly interested in the taxpayers opinion.

Mrs. Wagner made the following amendment:

I move to amend Article 1 that the payment of the principal and interest of the school bond issue be extended over a period of 25 years.

The amendment was seconded by Marie Janvrin.

When the vote was taken 51 voted for the amendment and 136 voted against it. The amendment did not pass.

There being no further discussion on Article 1, the

Moderator opened the polls at 9:56 p.m. for the yes/no vote on the article.

The polls were closed by the Moderator at 10:56 p.m. and the votes were tabulated by the ballot clerks, school clerk and Moderator. There were 256 votes cast with 171 voting in favor of the article and 85 voting against it. The Moderator ruled that the necessary 2/3 vote needed for the article to pass was achieved and declared that the article passed.

William Kenney moved that the District vote to raise and appropriate the sum of \$15,000 for the purpose of purchasing a certain parcel of land situated in Hampton Falls, County of Rockingham and State of New Hampshire on the Southerly side of Route 88 containing One and Seven Tenths acres, more or less, as shown and more specifically described on "Plan of Land", Hampton Falls School District, Hampton Falls, New Hampshire, Scale 1" = 50', November 1973 by Parker Survey Associates, Inc., Seabrook, New Hampshire.

Said parcel described generally as beginning at an iron pipe on the Southwest corner of said parcel and running Northwest $54^{\circ} - 01' 30''$ Two Hundred Ninety feet to a point Twenty-One feet before a set drill hole and pipe, thence turning Northeast $52^{\circ} - 11' - 20''$ and running Three Hundred Thirty Two feet to set drill hole along Route 88, thence turning Southeast and running along Route 88 Two Hundred Eighty-Six feet to the corner of present school property thence turning Southwest $52^{\circ} - 11' - 20''$ and running One Hundred Eighty-Eight feet to the point of beginning. Such parcel being contiguous to land presently owned by the Hampton Falls School District.

The motion was seconded by Newell Eaton.

Mark Kelley asked if this figure was to cover purchase. Kenney replied that this was the appraised figure plus \$2,000 for legal fees and so forth.

When the vote was taken it was tabulated as 99 in favor and none opposed. The article carried.

Andrew Drakides moved that the meeting be adjourned at 11:47 p.m. and the motion was seconded by Newell Eaton.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Hampton Falls:

I submit, herewith, my annual report for the Hampton Falls School District.

Happily the turmoil within the nation caused by actions or inactions of governmental figures and higher costs of almost everything has not penetrated to any extent what goes on in our schools. It is true that we are affected by higher costs but I look to the education institutions as a stability factor in our society at a time when it is of critical importance.

The Staff Development Committee working under a State mandate is making progress toward a Supervisory Union 21 plan of assessing program and staff and developing the machinery for an on-going process of evaluating and recommending. It is good to bear in mind that your School Board has the final say in all matters concerning the curriculum at the local level but parameters are set by the Legislature and State Board of Education.

As part of a program to further develop curriculum investigation and staff evaluation processes I have requested an Assistant Superintendent for Special Services.

We have 250 certificated and 100 non-certificated employees in the Supervisory Union affecting the education of 4172 students. In an attempt to better service your children it is inevitable that changes in staff will be requested -- whether it be adding or deleting positions or changing persons holding a position. None of this is done callously and all of it is done within the confines of the law.

The following are December 1973 enrollment figures for the six school districts that make up Supervisory Union 21:
